

**Portable CMU** offers you the benefits of university instruction in your own local setting! Each course includes three or four sessions. When chosen for use in a church context, many of these courses can culminate in a sermon on Sunday morning. These courses fit well into a weekend of educational activities, or they adapt well for settings such as church retreats, pastors' retreats, youth retreats, and so on. Some of the topics lend themselves very well to intensive sessions for leadership groups or focus groups within an agency or a congregation.

CMU hopes you will also consider collaborating with other churches in your vicinity to create a richer opportunity for exchange around one or more of these topics. Please visit <http://www.cmu.ca/portable.html> to view course details, collaborating opportunities and cost information.

**Musicality: Practising a Radical Grace**

Cheryl Pauls, Associate Professor of Music
